| Tes / Test | Hasil / Result |
|-------------------------------|-------------------------|
| COVID-19 Swab Antigen Regular | Negative (Non-Reactive) |

Catatan:

Hasil Negative tidak menyingkirkan kemungkinan infeksi SARS Cov-2 sehingga masih beresiko menularkan ke orang lain. Lanjutkan dengan pemeriksaan konfirmasi PCR dan tetap lakukan social distancing / isolasi diri.

Negative results do not rule out the possibility of infection with SARS Cov-2, so there is still a risk of transmitting it to others. Continue with PCR confirmation checks and continue to do social distancing / self-isolation.
